

Tele-Neurology

Tele-Neurology

- ✱ To better serve our patients presenting with cerebrovascular accidents, we have the capability of tele-neurology.
- ✱ It can also be utilized for non-urgent neurology needs.
- ✱ Located in our Emergency Department is an I-pad (tele-neuro cart) used to provide this service.

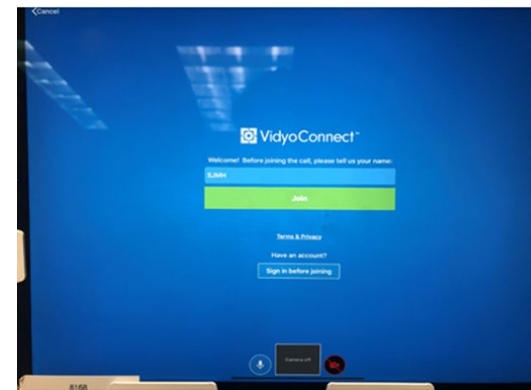

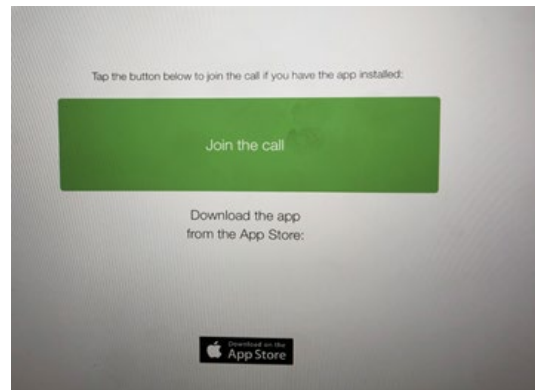

Process

- ✦ Prepare the cart for use. Power on the speaker at the top of the cart and wake the iPad from sleep mode.
- ✦ When directed by the physician call the WVU Medicine Neurologist on call. Tell them your name, location, situation, and request a video consultation.
- ✦ We have a Neurology call schedule located in the Call schedule drive on every computer.
- ✦ You will be given instructions of when to be at the patient's bedside with the tele-neuro cart and the SJMH Provider to evaluate the patient.

iPad Instructions

- ✱ Click on the “Stroke Video Connect” icon on the home screen. If you don’t see the icon swipe left or right to locate the home screen.
- ✱ Click the “Join the Call” button on the screen that appears.
- ✱ Another screen will appear, and you will again select join the call.
- ✱ You are now in the “chat room”

Documentation

- * Ensure when you begin the call with the neurologist you note the time. And, when the call is ended. You will need this information for documentation/billing purposes.
- * You will document the start and stop time of the call in the rounding notes.

Documenting the Neurologist Call

The screenshot displays a clinical software interface with a blue header and a left-hand menu. The menu includes options like 'Nurse View', 'Plans of Care Summary', 'MAR', 'Interactive View | I&O', 'Tasks', 'Orders | Plan of Care', 'Medication List', 'Documentation', 'Appointments', 'Results Review', 'Form Browser', 'Note | Scan | Import', and 'MAR Summary'. A red arrow points to 'Interactive View | I&O'. The main area shows 'Adult Quick View' with a list of tasks including 'Patient Status Rounding', 'Environmental Safety Management', 'Isolation Assessment', 'Vital Signs', 'Measurements', 'Pain Assessment', and 'Activities of Daily Living'. A red arrow points to 'Patient Status Rounding'. Below this is a 'Last 24 Hours' log table with columns for 'Result', 'Comments', 'Flag', 'Date', and 'Performed By'. The table contains entries for 'Patient Status Rounding' and 'Patient Status Rounding Comments'. A red arrow points to the 'Patient Status Rounding Comments' entry, which has a comment starting with 'tele neuro c...'. Other entries include 'Vital Signs' with sub-items like 'Temperature Temporal Artery', 'Temperature Temporal Artery (F)', 'Temperature Oral', 'Temperature Oral (F)', 'Temperature Tympanic', and 'Apical Heart Rate'.
